Instructions for accessing and playing CARE Kahoot games

1.	Go to www.getkahoot.com

2.	In upper right hand corner, click on "Log in."

3.	Username is: carechicago
	Password is: 12345678

4.	Click on "Log in."
	If prompts refer to your computer as "Unrecognized device," select the "Other options" choice at the bottom of the screen.

	At the next screen asking you to choose between one of two options, select the first option and enter the email address of the device you are using, then select "Continue" or whatever other prompt is given to move to the next screen. You should now enter the Kahoot main screen.

5.	On the upper left corner under K!Pro, click on the drop-down arrow to the right of "CARE Chicago."

6.	Select "Credit Abuse Resistance Education"

7.	On the left side, click on "Library."

8.	Scroll through the library of games covering the right two-thirds of the screen to find the game you want.

9.	Click "Start" for that game.

10.	Select "Classic mode."

11.	At the next screen you will get the game number.
	Click on the gear icon in the lower right corner. Turn On the option to randomize order of answers. We recommend you turn ON the option for Characters (an emoji generator). Turn OFF all other options. Then X out of the Settings at the upper right corner.

12.	Optional – in the lower right corner, on the loudspeaker icon, turn off the music or select your preferred music.

13.	Instruct audience members to log in with the Kahoot app (if they have it) or on their web browsers with www.kahoot.it

14.	On their devices, instruct the audience members to enter the pin number on your screen.

15.	After audience members put in names (which can be fake names), start the game.

16.	**NOTE**: If you think there should be a change to any Kahoot game (in the answers or questions or in adding or deleting questions), please do <u>not</u> make this change on your own. Instead, please contact Joseph U. Schorer (jschorer10@gmail.com) or Jeffrey Schwart (jschwartz@muchlaw.com).
